

TEDxGUC

A STORY ABOUT TED

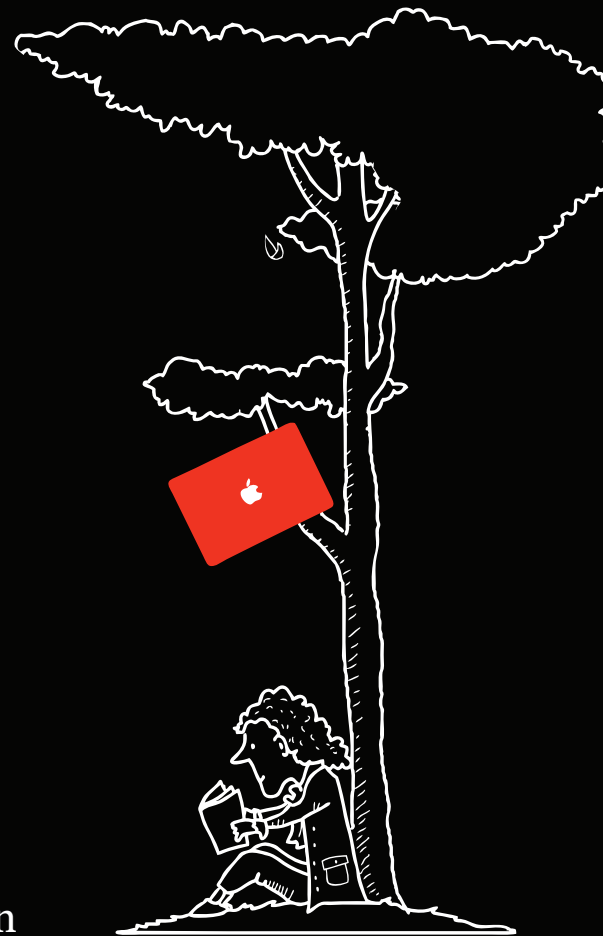

Ideas came to life when we came to consciousness

Every time we discovered a new way of communication
Ideas found a new way to travel

and with every new way a revolution followed

Pushing this forward
TED was founded with the mission of
“ideas worth spreading”

Gathering intellectuals
to share ideas in Technology, Entertainment and Design

TED talks have travelled the world
changing the lives of many people out there

But many good ideas are yet to find light..

Sharing ideas leads to the construction of new ideas

People can take part in constructing an idea
by learning it and teaching it to someone else

AND THIS IS WHY TEDxGUC IS THROWING A TEDx EVENT
