

# TEDxGUC

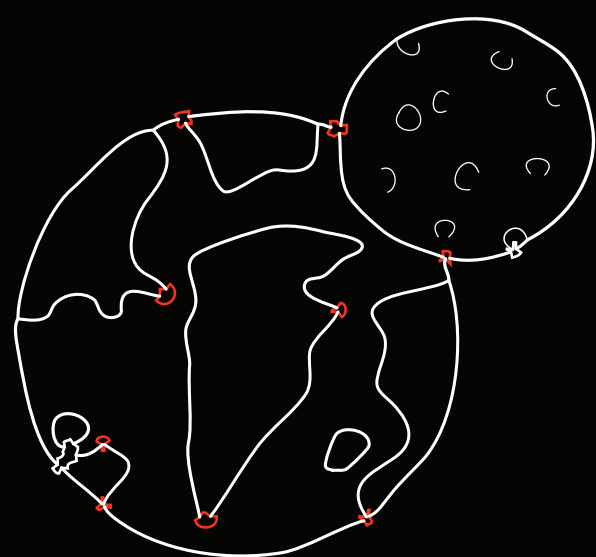

Navigate using your keyboard arrows

Or just scroll using your mouse wheel

## ORIGIN OF IDEAS

Ideas came to life when we came to consciousness

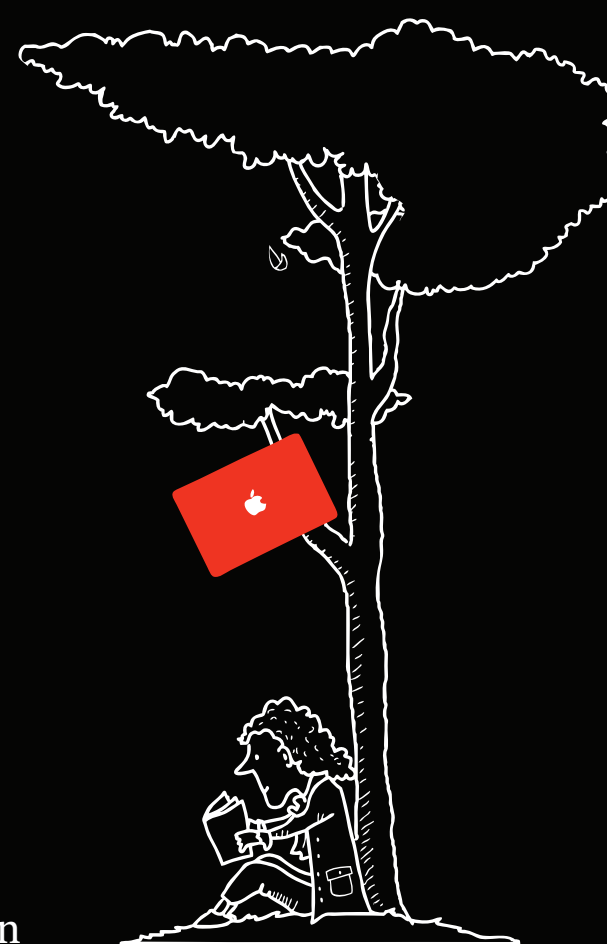

Every time we discovered a new way of communication  
Ideas found a new way to travel

and with every new way a revolution followed

## FOUNDING OF TED

Pushing this forward  
TED was founded with the mission of  
“ideas worth spreading”

Gathering intellectuals  
to share ideas in Technology, Entertainment and Design

## TED TALKS

TED talks have travelled the world  
changing the lives of many people out there

But many good ideas are yet to find light..

## LEARNING & TEACHING

Sharing ideas leads to the construction of new ideas

People can take part in constructing an idea  
by learning it and teaching it to someone else

And this is why TEDxGUC is throwing a TEDx event
